📍 Pune, Maharashtra, India

OBJECTIVE

Enthusiastic, meticulous, and detail-driven B.Tech Computer Engineering student with a strong foundation in technical concepts, seeking an internship or entry-level position to apply academic knowledge, enhance professional skills, and contribute effectively to innovative and impactful projects within a dynamic, collaborative environment.

EDUCATION

Bachelor of Technology in Computer Science and Business System

JSPM's Rajarshi Shahu College of Engineering, Pune, Maharashtra

- Current CGPA: 9.52

Diploma in Computer Engineering

Pimpri Chinchwad Polytechnic, Akurdi, Pune, Maharashtra

- Percentage: 90.06%

Secondary School (10th Grade)

Vidya Niketan English Medium School, Pimpri-Chinchwad, Pune, Maharashtra

- Percentage: 90%
-

PROFESSIONAL EXPERIENCE

Trainee

MRND Pvt. Ltd., Pune, Maharashtra – (3 months)

- Gained hands-on experience in Front-end Web Development and UI design.
- Utilized HTML, CSS, and JavaScript to build responsive and user-friendly interfaces.
- Contributed to website optimization and debugging efforts to enhance performance and usability.
- Collaborated with the development team, gaining practical insight into industry workflows and project execution processes, which strengthened technical and problem-solving skills.

This experience provided valuable industry exposure, improved my web development skills, and enhanced my understanding of real-world project workflows.

TECHNICAL SKILLS

- **Languages:** C, C++, Java, Python
 - **Web Technologies:** HTML, CSS, JavaScript, PHP
 - **Database:** DBMS, SQLite, MongoDB
 - **Other:** Basic Data Analysis and Visualization
-

PROJECTS

Grocery Store Website

Developed a fully functional grocery store website using HTML, CSS, and JavaScript, featuring an intuitive interface for browsing products, managing a shopping cart, and placing orders. Focused on responsive design and smooth user experience.

Hotel Management System Website

Created a Hotel Management System with an integrated To-Do List feature to manage daily operations efficiently. Implemented core CRUD (Create, Read, Update, Delete) functionalities using Spring Boot, Thymeleaf, and MySQL, ensuring streamlined task tracking and data management.

ADDITIONAL INFORMATION

- Adaptable and quick to learn, with a strong foundation in software testing, debugging, and analytical problem-solving.
 - Demonstrates a keen interest in automotive technologies, software quality assurance, and practical engineering applications.
 - Currently engaged in web development, emphasizing scalable, efficient, and user-focused solutions.
 - Aspires to deepen expertise in artificial intelligence and emerging technological innovations.
-
